## Summary

Final year Computer Science student with strong skills in React and Java along with a passion for learning new technologies quickly. I enjoy building practical solution, improving my technical skills and taking on new challenges. Seeking an opportunity where I can apply my knowledge continue learning and gain valuable real world experience while contributing positively to organization.

## Projects

### E-Commerce Website

**Technologies:** React.js, JavaScript, HTML, CSS, Bootstrap

- Developed a responsive e-commerce website with a modern user interface.
- Implemented product listing, product details, and category filtering features.
- Added shopping cart functionality for managing selected products.
- Designed responsive layouts to ensure compatibility across mobile, tablet, and desktop devices.
- Improved user experience through intuitive navigation and clean design.

### Study Management System

**Technologies:** React.js, JavaScript, HTML, CSS, Bootstrap

- Developed a study management system to help students organize academic tasks and study materials.
- Implemented features for adding, updating, and deleting study schedules and assignments.
- Created a dashboard for tracking tasks, deadlines, and study progress.
- Designed a user-friendly interface to improve productivity and task management.
- Ensured responsive design for seamless access across different devices.

### Personal Portfolio Website

**Technologies:** React.js, JavaScript, HTML, CSS, Bootstrap

- Built a personal portfolio website to showcase skills, projects, and achievements.
- Implemented a responsive and modern design with smooth navigation.
- Added sections for projects, technical skills, education, and contact information.
- Integrated resume download functionality for recruiters and employers.
- Optimized performance and accessibility for a better user experience.
